

 **thinksound**<sup>™</sup>  
Engineered for enjoyment.

## **It all starts with the sound.**

We started thinksound™ to make headphones that we would want to listen to; and we're not easily satisfied. They not only had to sound amazing; they had to look good, feel comfortable in your ears and be designed and manufactured responsibly too. We gave ourselves quite the challenge. Back when we set out to do this; it was unheard of in the audio industry.

Over the years, other companies have taken notice. They've copied the design, the packaging, the accessories, and even have taken text directly from our website and catalog. While these companies and their headphones may try to look similar; it's only skin deep. The sound, what matters most, just doesn't compare. Don't take our word for it either; read what the reviewers have said.

We're a small company. We work hard to make extraordinary products and offer them at affordable prices and we back all of this with unmatched customer service. We're not happy accepting "good enough" and honestly you shouldn't be either.

Thank you for supporting thinksound.

Sincerely,

A handwritten signature in black ink, appearing to read 'AF', with a long horizontal stroke extending to the right.

## Our story.

thinksound™ was founded by Aaron Fournier and Mike Tunney, who met while working at Tivoli Audio over a decade ago. After spending their formative years working alongside industry legends Cary Christie (Infinity/Artison) and Tom DeVesto (Tivoli Audio/Cambridge Soundworks); they decided the time was right to strike out on their own.

With the belief that products should be designed and manufactured responsibly, without sacrificing quality or price, thinksound was launched.

thinksound™ products feature a level of sound quality and fit and finish which is unrivaled in their price range. Our headphones also come with a comprehensive warranty and our acclaimed customer service. We invite you try a pair of thinksound™ headphones and hear what you've been missing.

A man with a goatee, wearing a black leather jacket, a black t-shirt with a paisley graphic, and large headphones, is playing a Fender Precision Bass guitar. He is wearing dark sunglasses. The background is a wall of horizontal wood slats. The guitar has a light-colored body and a dark pickguard. The text is overlaid in the upper right corner.

“Great sound and comfort. The passive noise isolation and full-range, even sound ensures that I hear my bass, and everything else, perfectly.”

– Mark Damon, Bassist for The Pretty Reckless

A white, handwritten signature of Mark Damon, consisting of stylized letters, is positioned below the quote and to the left of the guitar's headstock.

Mark Damon

“I’m blown away by the sound quality and  
comfort of the On1 headphones.”

– Chris Adler, 3x Grammy Nominated Drummer for  
*Lamb of God*

*Chris Adler*

“Designed to meet the needs of professional musicians and audio engineers who are passionate about sound quality.”

– Alex Skolnick, renowned guitarist for Testament and the Alex Skolnick Trio

Alex Skolnick

“I mix with thinksound because even at a low volume I can still hear everything. They give me the feeling of mixing on speakers.”

– Nik Chinboukas, Engineer/Producer  
Spin Studios NYC

Designed to perform to our high standards, and theirs too:

“Though I’ll probably always be attracted to the many varieties of headphones available, I know I need only one and it’ll come from thinksound.”

– *Stephen Mejias, Stereophile*

## On2monitorseries

**The evolution of sound.** The On2 supra-aural monitor is the newest version of the award-winning On1; a headphone that has been named an A-Rated Component by Stereophile Magazine for three years in a row. The On2 features accurate, professional studio monitor sound and imaging. It has an enhanced 40mm speaker driver with upgraded acoustics for more accurate sound reproduction and a larger sound stage.

The On2 supra-aural monitor is available in a beautiful natural wood finish and includes two sets of detachable Kevlar reinforced, tangle resistant fabric cables. They feature luxurious memory foam ear pads and a flexible headband for extra comfort. A cotton carrying pouch is also included to protect the headphones and store the accessories.

- Voiced by acclaimed audio engineer, Aaron Fournier
- Hand crafted natural wood housing for accurate music reproduction
- Award-winning thinksound™ signature acoustics
- Two (2) 4.5' long detachable cables – (1) with mic control and (1) without
- Single button microphone + call/music control for mobile communication
- Compatible with iOS and Android devices
- 5Hz-22kHz frequency response, 50Ω, 40mm dynamic driver
- 3.5mm steel reinforced gold plated stereo plug for increased sound clarity
- Passive noise isolation minimizes ambient sounds
- Kevlar reinforced, tangle-resistant fabric cable
- Memory Foam ear pads for maximum comfort and wearability
- Flexible metal headband with comfortable faux leather overlay
- Storage pouch included and a two (2) year limited warranty

## ms02 monitorseries

**Studio sound right in your ear.** thinksound™ ms02 in-ear monitor is the latest version of our first in-ear monitor, the award-winning ms01. The ms02 features a high-definition 8mm driver with passive noise isolation. It was voiced by critically acclaimed Audio Engineer and thinksound CEO, Aaron Fournier.

The ms02 has advanced studio acoustics and a full range sound that delivers exactly what musicians and discerning listeners demand. It features an ultra-lightweight design and reduced speaker diameter for better ergonomics. The ms02 also features tangle resistant PVC-Free cables, and a hand crafted, sustainable, wood housing for more accurate sound reproduction. Each pair comes with a cotton carrying pouch and four sets of ear fittings to ensure a perfect fit. As with all thinksound products, the ms02 in-ear monitors come with a one (1) year warranty.

- Voiced by acclaimed audio engineer, Aaron Fournier
- High-definition 8mm driver for detailed, accurate sound
- Wooden housing for crisp, accurate music reproduction
- Compatible with iOS and Android devices
- Advanced studio acoustics and a full range sound
- Dynamic driver features 15 Hz – 20 kHz frequency response
- 96 ±3 dB @ 1KHz 1mW sensitivity
- 16 ohm impedance
- 45° angled gold plated plug for increased clarity & durability
- 10g Ultra-lightweight design
- Kevlar-reinforced, tangle-resistant 4 foot long cable
- Passive Noise Isolation minimizes ambient sounds
- Sweat-resistant design, perfect for the gym
- Four flexible silicon ear inserts for a secure fit (s/m/l/xl)
- Cord clip & cotton carrying pouch
- One (1) year limited warranty

## rain3

**The sound that started it all. Now, completely reimagined.** The rain3 is the latest headphone in the award-winning rain product line. It features an 8mm dynamic speaker driver, upgraded acoustics for more accurate sound reproduction and a wide sound-stage. The result is a versatile headphone that was engineered to have a smooth sound signature.

The rain3 has gunmetal aluminum baffle mated to a chocolate-stained housing that is hand-crafted from sustainable wood. It features an ultra-lightweight design for better ergonomics and comfort for longer listening periods. Passive noise cancellation minimizes ambient sounds. The rain3 also has tangle resistant PVC-Free cables. Each pair comes with a cotton carrying pouch and four sets of ear fittings to ensure a perfect fit.

- Voiced by acclaimed audio engineer, Aaron Fournier
- Compatible with iOS and Android devices
- Wooden housing for crisp, accurate music reproduction
- Dynamic driver features 18Hz to 20kHz frequency response
- 96 ±3 dB @ 1KHz 1mW sensitivity
- 16 ohm impedance
- 45° angled gold plated plug for increased clarity & durability
- 9.5g Ultra-lightweight design
- Kevlar-reinforced, tangle-resistant 4 foot long cable
- Passive Noise Isolation minimizes ambient sounds
- Sweat-resistant design, perfect for the gym
- Four flexible silicon ear inserts for a secure fit (s/m/l/xl)
- Cord clip & cotton carrying pouch
- One (1) year limited warranty

## ts03+ mic

**Smooth sound for smooth talkers.** The ts03+mic is the new version of our award-winning ts02+mic headphone. It features an 8mm dynamic speaker driver, upgraded acoustics for more accurate sound reproduction and a wide sound-stage. The result is a versatile headphone with deep, tight bass.

The ts03+mic has gunmetal aluminum baffle mated to a walnut-stained housing that is hand-crafted from sustainable wood. It features an ultra-light-weight design for better ergonomics and redesigned single-button mic. The ts03+mic also has tangle resistant PVC-free cables. Passive noise cancellation minimizes ambient sounds. Each pair comes with four sets of ear fittings to ensure a perfect fit, a cotton carrying pouch and the new hard case. As with all thinksound in-ear headphones, the ts03+mic comes with a one (1) year warranty.

- Microphone + call/music control for mobile communication
- Compatible with iOS and Android devices
- Wooden housing for crisp, accurate music reproduction
- 20 Hz – 20 kHz frequency response
- 99 ±3 dB @ 1KHz 1mW sensitivity
- 16 ohm impedance
- 45° angled gold plated plug for increased clarity & durability
- Acoustically enhanced 8mm driver
- 10g Ultra-lightweight design
- Kevlar-reinforced, tangle-resistant 4 foot long cable
- Passive Noise Isolation minimizes ambient sounds
- Sweat-resistant design, perfect for the gym
- Four flexible silicon ear inserts for a secure fit (s/m/l/xl)
- Cord clip, cotton carrying pouch & hard case
- One (1) year limited warranty

“thinksound makes great sounding headphones. I used them in my studio during the process for recording “For All Kings” and I use them for everyday listening. Good guys who make some great products, check them out!”

– Joey Belladonna – 3x Grammy nominated lead singer for Anthrax, Chief Big Way
